ACKNOWLEDGMENTS—This report was prepared in the Governments Division by the Finance Branch, headed by **Henry S. Wulf**, under the direction of **Vance Kane**, Assistant Division Chief for Programs. Data were reviewed by **John L. Curry**. **Maurice Criz**, Senior Advisor, was responsible for planning and review of this publication.

The data in this report were assembled and processed under the administration of **Alan R. Jones**, Assistant Division Chief for Operations **Genevieve M. Speight** and **Ulvey S. Harris**, managing the Eastern and Western Sector Branches respectively, directed the data compilation effort. **Daniel L. Pflum** and **Linda Humphreys** of the Computer Utilization Branch headed by **Judith Jennings**, coordinated the data processing and computer operations.

The Publication Services Division provided advice and service in the preparation of copy for publication. Publication copy, under the supervision of **Corrine W. Davis**, was prepared in the Governments Division.

The cooperation of the thousands of state and local officials in providing information for this report is gratefully acknowledged.

For information regarding data contained in this report, contact **Vance Kane**, Governments Division, Bureau of the Census, Washington, D.C. 20233 (area code 301/763-7664).

INTRODUCTION

Municipalities in the United States received \$115.4 billion from all revenue sources and made expenditures totaling \$113.0 billion in fiscal year 1981-82. Total revenue increased \$10.0 billion or 9.5 percent and expenditure was \$8.6 billion or 8.2 percent larger than the previous fiscal year.

General revenue of city governments, which excludes utility, liquor store, and employee-retirement amounts, was \$91.5 billion in 1981-82 compared with \$83.2 billion a year earlier.

General expenditure--i.e., spending other than for utility, liquor store, and employee-retirement purposes-- totaled \$85.6 billion in 1981-82, an increase of \$6.2 billion from 1980-81.

This report includes significant changes in the presentation of municipal government financial data. Table 1 continues to show national totals on the finances of cities. Amounts shown pertain to municipal fiscal years which closed within the 12 months ending June 30 of the later year specified in the column heading. Note that long-term debt outstanding is now displayed by function.

The presentation of data by city-size groups, based on 1980 populations, has been expanded to show a percentage distribution of finance items (table 4). Table 2 presents the financial amounts for these size groups while per capita figures are displayed in table 3.¹

Table 5 presents statistics for cities and selected townships having 50,000 or more inhabitants in 1980, which are recalculated into per capita amounts in table 6. More detailed financial data for the 49 cities with a 1980 population of 300,000 or more are presented in table 7.

Tables for municipal utilities have been revised substantially. Table 8 summarizes their finances by State

and by type of utility (water, gas, electric, and transit systems). Detailed statistics of individual systems for cities over 50,000 population are presented in table 9.

Another change in presentation concerns transit subsidies. In prior reports, these were included in the "Other and unallocable" category. In this report, they are found under "Other transportation."

GENERAL REVENUE

Since fiscal year 1977-78, city governments have been receiving a decreasing proportion of their general revenue from direct Federal grants-in-aid, from 15.6 percent to 12.0 in fiscal 1981-82. During the past decade, there has been a decline in the percentage from property taxes, which decreased from 31.4 in fiscal 1971-72 to 21.3 percent in fiscal 1981-82. Proportionate amounts received from nonproperty taxes have increased from 16.2 percent in fiscal 1974-75 to 19.2 percent in fiscal 1981-82. Charges and miscellaneous revenue have shown a similar trend, increasing from 17.5 percent in fiscal 1976-77 to 24.9 percent in 1981-82.

As shown in table A, city-imposed taxes increased 8.7 percent to \$37.1 billion in fiscal 1981-82 or 40.5 percent of all general revenue of city governments. Property taxation continued as the predominant tax revenue source, supplying \$19.5 billion. Other municipal tax amounts, as shown in table 1, consisted of \$6.3 billion from general sales and gross receipts taxes, \$3.8 billion from selective sales taxes, \$5.0 billion from income taxes, and \$2.4 billion from licenses and miscellaneous other taxes.

Municipalities received \$18.9 billion from State governments in fiscal 1981-82. This, together with sums received directly from the Federal Government and from other local governments (mainly counties), made the total of city intergovernmental revenue \$31.6 billion, or 34.6 percent of general revenue from all sources. Included in this total are \$2.5

¹Size-class distributions of municipal governments, together with related 1980 population figures, are shown nationally and for States and metropolitan areas in the 1982 Census of Governments, Vol. 1, Governmental Organization (GC82(1)).

billion in general revenue sharing funds distributed by the Federal Government to municipalities under the State and Local Fiscal Assistance Act of 1972, as amended.

Sources other than taxes and inter-governmental revenue supplied \$22.7 billion of municipal general revenue in fiscal 1981-82. This amount included \$12.4 billion from current charges (other than for utility services, classed separately as utility revenue).

Table A. Summary of Municipal Government Revenue: 1981-82

Item	Amount (millions of dollars)	Percent	Percent change from 1980-81
Revenue from all sources..	115,416	100.0	9.5

Insurance trust revenue.....	3,552	3.1	-5.8

In August 1982, Washington, D.C. became the first city to operate a lottery. Its fiscal activity for fiscal year 1982 is shown below (in thousands of dollars):

Item	1981-82 amount
Income:	
Ticket sales (less commissions)	15,811
Apportionment of funds:	
Prizes.....	8,278
Administration.....	2,347
Proceeds available from ticket sales.....	5,186

GENERAL EXPENDITURE

As indicated in table B, education takes a larger share of city expenditure than any other function, even though most

of this spending is by the small fraction of municipal governments (including New York City and some other very large units) that directly administer local public schools. In most cities, public schools are administered by independent school districts, for which financial data are included in the report, Governmental Finances in 1981-82 (GF82 No. 5).

Table B. Summary of Municipal Government Expenditure: 1981-82

EXPENDITURE BY CHARACTER AND OBJECT

Over seventy-one percent of all municipal expenditure in fiscal 1981-82 (including amounts for utilities, insurance-trusts and governmental administration) was for current operation. Expenditure of this nature amounted to \$80.7 billion. Expenditure for salaries and wages amounted to \$38.8 billion in fiscal 1981-82, accounting for 34.3 percent of all municipal expenditures.

Capital outlay--mostly for construction, but also including spending for equipment and the purchase of land and existing structures--amounted to \$18.8 billion, or 16.7 percent of all municipal expenditures.

Payments of interest on debt (including utility as well as general municipal debt) amounted to \$5.8 billion, insurance benefits and repayments were \$3.7 billion, and cash and assistance payments totaled \$1.7 billion.

Unlike the previous publication in the City Government Finances series, this report does not show salaries and wages expenditure for selected functions. Total amounts for this object code, however, continue to be presented nationally and for each city published individually.

INDEBTEDNESS AND DEBT TRANSACTIONS

At the end of fiscal 1981-82, municipal indebtedness totaled \$100.3 billion. The debt total included \$38.6 billion of long-term indebtedness pledging the cities' full faith and credit, \$56.9 billion of nonguaranteed long-term debt, and \$4.8 billion of short-term debt. Debt figures shown include debt issued and retired during the 1982 fiscal year, and debt outstanding at the end of the fiscal year.

During fiscal 1981-82, municipalities issued \$11.5 billion of long-term debt, including \$2.8 billion for utility purposes. Their retirement of long-term debt during this fiscal year totaled \$5.5 billion, including \$1.4 billion of utility indebtedness.

A significant classification change in the reporting of statistics on indebtedness took place effective with the 1978-79 survey. Prior to 1978-79, both original issues and related advance refunding issues were included as debt outstanding of the government. Amounts reported for debt outstanding and retired and for debt offsets now reflect the "redemption" of original issues of bonds which are no longer carried in the official accounts of governments. Consequently, amounts shown for debt retired during 1978-79 include a one-time adjustment reflecting previously issued advance refunding transactions. Amounts so included for city governments totaled approximately \$2.5 billion in 1978-79.

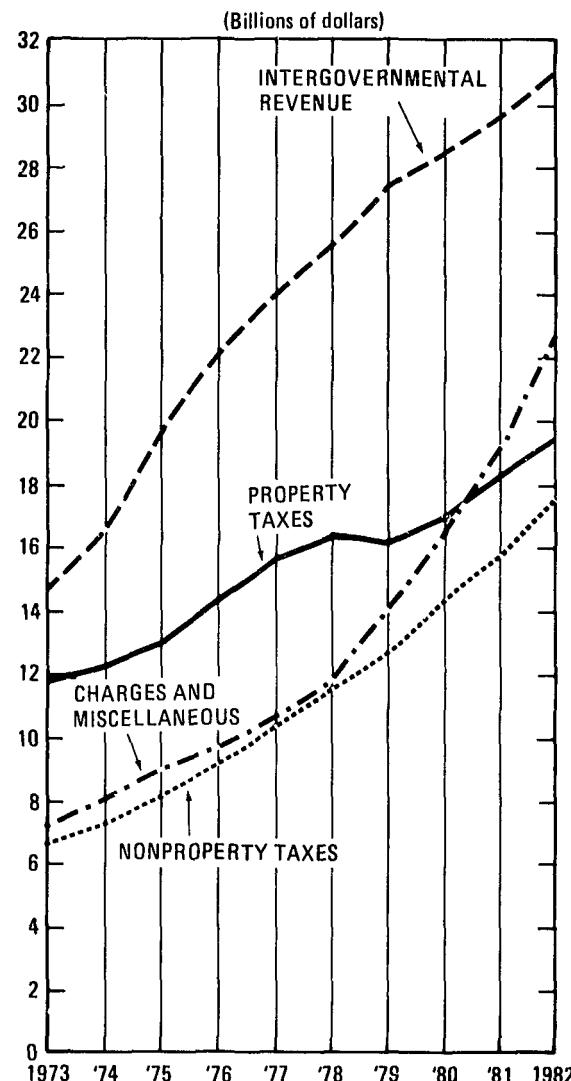

As shown in table C, long-term debt is often nonguaranteed, i.e., obligations are payable solely from pledged earnings of specific activities or facilities, from special assessments, or from specific nonproperty taxes. The long-term debt shown below represents gross long-

term debt less amounts reserved for future debt retirement, which are commonly referred to as long-term offsets.

Table C. Summary of Municipal Government Indebtedness: 1981-82

CASH AND SECURITY HOLDINGS

The summary presented in table D shows financial assets of municipal governments. Financial holdings of municipalities amounted to \$84.4 billion at the end of fiscal 1981-82. Assets of municipal insurance trust systems accounted for 44.7 percent of all financial holdings, including \$37.7 billion employee-retirement assets and a negative \$2.4 million balance of Washington, D.C.'s unemployment compensation system. Other major holdings by purpose included \$12.2 billion for offsets to long-term debt, \$7.7 billion as proceeds of bond issues held pending disbursement, and \$26.8 billion representing holdings of all other city funds, including public trust and investment funds.

CITY UTILITIES AND LIQUOR STORES

Municipal governments commonly operate water supply systems and some of them also operate other utilities--electric power, gas supply, and local transit systems. Financial data for these various types of utilities are shown in tables 8 and 9.

City utility revenue in fiscal 1981-82 totaled \$20.1 billion, including \$6.2 billion for water supply systems and \$10.4 billion for electric power systems. Utility expenditure amounted to \$23.5 billion, of which \$17.3 billion was for current operation, \$4.7 billion was capital outlay, and the remainder was interest on utility debt.

Municipal long-term indebtedness for utilities at the end of the fiscal year amounted to \$25.6 billion.

City-operated liquor stores are administered by certain municipalities in Alaska, Minnesota, North Carolina, and South Dakota. In 1981-82, municipal liquor stores in these four States had revenues and expenditures as follows (in thousands of dollars):

	Liquor stores revenue	Liquor stores expendi- ture
Alaska.....	290	192
Minnesota.....	146,486	129,924
North Carolina....	103,093	89,565
South Dakota.....	26,478	23,800

FINANCES OF MUNICIPAL EMPLOYEE-RETIREMENT SYSTEMS

Municipal revenue in 1981-82 included employee-retirement revenue of \$3.5 billion, consisting of employee contributions, earnings on retirement system investments, and State payments for employees covered by municipal systems.

Benefits and withdrawals paid by municipal retirement systems in 1981-82 totaled \$3.6 billion, and their financial assets at the end of the fiscal year amounted to \$37.7 billion, as shown in table 1.

The above figures pertain only to municipal-administered employee-retirement systems. They do not include amounts for State-administered systems--some of which provide coverage for municipal employees--or for the Federal program of Old Age, Survivors, Disability, and Health Insurance. Employer payments by participating cities to such other retirement programs are included here as a part of current operation expenditure.

SIZE GROUP STATISTICS

Financial statistics for various population-size groups of municipal governments appear in tables 2, 3, and 4. Figures for cities of less than 50,000 population represent estimates based on a random sample.

As evident by the functional detail in these tables, the relative financial scale of cities in the several size groups is strongly affected by the varying scope of municipal government responsibilities. In eight of the cities of over 300,000 population, public schools are operated by the municipal corporation rather than by an independent school district as is commonly the case. Furthermore, 14 municipalities within this size group (including 10 of the 23 cities with more than 500,000 inhabitants) are, in effect, composite city-county governments. Nearly all smaller municipalities, on the other hand, are located in areas which are served by a separate county government.

INDIVIDUAL MUNICIPAL DATA

Table 5 is a presentation of financial statistics for 447 cities and selected townships having 50,000 inhabitants or more in 1980. The cities are arranged alphabetically by State. Per capita amounts for selected financial items appear in table 6. Any intercity com-

parisons based upon these figures should be made with caution, recognizing the variations that exist among urban areas in the relative role played by the municipal corporation, as discussed below under "Coverage and Limitations of Data."

Tables 5 and 6 also supply data for major town and township governments in certain States where such governments are similar to cities in organization and local services provided. These governments can be distinguished from municipalities by the fact that their designation in each instance includes the term "town" (for Connecticut and Massachusetts units) or "township" (for New Jersey and Pennsylvania units). The municipal aggregates presented in tables 1 to 4, however, include no amounts for township (or "town") governments.

Table 7 provides a more detailed array of financial information for each of the 49 municipalities of at least 300,000 inhabitants in 1980.

COVERAGE AND LIMITATIONS OF DATA

Data in this report relate only to municipal corporations and their dependent agencies, and do not include amounts for other local governments overlaying city areas. Therefore, expenditure figures for "education" do not include spending by the separate school districts which administer public schools within most municipal areas. Variations in the assignment of governmental responsibility for public assistance, health, hospitals, public housing, and other functions to a lesser degree, also have an important effect upon reported amounts of city expenditure, revenue, and debt.

Data presented in this publication are statistical in nature and do not represent an accounting statement. Therefore, a difference between an individual government's total revenues and expenditures does not necessarily indicate a "budget" surplus or deficit.

The 1981-82 fiscal years reported are those which closed between July 1, 1981, and June 30, 1982. A majority of municipalities end their fiscal years on December 31; the next most common financial period is the 12 months ending June 30. Data for Washington, D.C. is for the fiscal year ending September 30, 1982.

The financial statistics reported here are based mainly on a mail canvass that covered substantially all cities with 1975 estimated populations of 25,000 or more. Estimates for minor revenue items,

expenditure, debt, and cash and security holdings were developed from data received from a scientifically designed sample of city governments below that population size. As a result, the data covering the total of all cities are subject to some sampling variations. Calculations of the relative standard error of these estimates indicate that for major items it is less than 1 percent (at the two-thirds confidence level).

For the 49 cities with 300,000 inhabitants or more and for a limited number of smaller cities, the basic data were compiled by Census Bureau representatives from official reports and records, with the advice and assistance of local officers and employees. Information for other cities was supplied by local officials in response to a mail canvass that involved the use of detailed census questionnaires. The mail reports were examined intensively, and followup correspondence was used to supplement and verify questionable figures.

Data for municipalities between 25,000 and 50,000 population, selected sample jurisdictions, and certain unpublished financial items can be obtained from Census Bureau data files. For further information, contact Chief, Governments Division, Bureau of the Census, Washington, D.C. 20233.

RELATED REPORTS

The annual report, Governmental Finances in 1981-82 (GF82, No. 5), provides estimated nationwide financial aggregates covering other types of local governments as well as municipalities, together with State and Federal Government data.

A future report from the 1982 Census of Governments, Vol. 4, No. 4, Finances of Municipal and Township Governments, will present municipal finance data for fiscal 1981-82 in detail, including figures for size-groups of municipalities, State-by-State totals, and figures for municipalities of 10,000 inhabitants or more.

More detailed data on municipal employee-retirement systems and their finances, including figures for individual major systems, appear in Vol. 6, No. 1, of the 1982 Census of Governments Employee-Retirement Systems of State and Local Governments in 1981-82 (GC82(6)-1).

Local government finances pertaining to education will be covered in the future report Finances of Public School Systems, Vol. 4, No. 1, of the 1982 Census of Governments. This report will contain data for independent school districts as well as those school systems that are treated as dependent agencies of another government.

Note: Data partially based on estimates subject to sampling variation; see text. Detail may not add to totals due to rounding. See table 9 for finances of individual municipal utility systems.

¹ Represents zero or rounds to zero. ² Utility revenue does not include certain receipts, such as permits, special assessments, intergovernmental aid (primarily transit subsidies), and interest income, classified in other general revenue categories, or subsidies from parent governments. Utility expenditure includes interest on debt. ³ Data revised subsequent to production of final tables; revision not carried forward to totals on this table or tables 1 through 4 due to its relatively insignificant size. Detail for these columns, therefore, will not add to totals.

Table 9. Supplementary Detail on Utilities for Individual City and Selected Urban Town and Township Governments Having 50,000 Population or More: 1981-82

(Thousands of dollars)

State and city	Type of utility	Utility revenue	Utility expenditure				Utility long-term debt outstanding
			Total	Current operation	Capital outlay	Interest on debt

Note: Data for very small utility systems not shown. "Utility revenue" does not include certain receipts, such as permits, special assessments, intergovernmental aid (primarily transit subsidies), and interest income, classified in other general revenue categories, or subsidies from parent government.

- Represents zero or rounds to zero.

¹Data are for 1980-81.

APPENDIX A. Factors Affecting Municipal Finances

Listed below are some factors which deserve special attention in interpreting data shown in tables 5, 6, and 7.

ASHEVILLE, N.C.

Utility data include city liquor store operations. Revenue, \$6,947,000 and expenditure, \$6,189,000.

CLEVELAND, OHIO

Operation of city sewer system assumed by North East Ohio Regional Sewer District, an independent special district government.

FARGO, N. DAK.

Fiscal year ending date changed from 6/30 to 12/31. Data shown are for 12-month period ending 12/31/81.

GREENSBORO, N.C.

Utility data include city liquor store operations. Revenue, \$11,892,000 and expenditure, \$10,325,000.

HIGH POINT, N.C.

Utility data include city liquor store operations. Revenue, \$4,811,000 and expenditure, \$4,136,000.

IRVINGTON (TOWNSHIP), N.J.

Irvington reclassified from city government to township type.

SAN ANTONIO, TEX.

Fiscal year ending date changed from 7/31 to 9/30. Data shown are for 12-month period ending 9/30/81.

SEATTLE, WASH.

In prior reports, a portion of the finances of the jointly operated public health department was included in

Seattle's statistics. This year, these amounts are reported under King County's health expenditure. (See County Government Finances in 1981-82, GF82 No. 8.)

WASHINGTON, D.C.

Due to its unique status as a composite city-county-State government, the Nation's capital is the only municipality to participate directly in the Federal-State cooperative unemployment compensation system. Its fiscal activity during fiscal year 1982, included in the employee-retirement figures on tables 5 and 7, is shown below (in thousands of dollars):

<u>Item</u>	<u>1981-82 amount</u>
Revenue, total.....	68,380
Unemployment compensation payroll tax.....	50,980
Federal contributions and advances.....	17,400
Expenditure, total.....	99,287
Regular benefits.....	81,922
Extended and special benefits.....	17,365
Assets, total.....	-2,354
Trust fund account in U.S.	255
Treasury.....	255
Clearing and benefit accounts (minus sign indicates negative balance).....	-2,609

As noted in the text, Washington, D.C. became the first municipality to operate a lottery, beginning in August 1982.

WINSTON-SALEM, N.C.

Utility data include liquor store operations. Revenue, \$12,495,000 and expenditure, \$10,682,000.

APPENDIX B. Definitions of Selected Terms

Agency and Private Trust Transactions--Transactions excluded from census data on city finances because they involve receipt, holding, and disbursement of moneys by city governments as agent or trustee for other governments or private persons, such as collection of Federal income taxes and social security "taxes," receipt and return of guarantee deposits, and the like.

Air Transportation--Operation and support of publicly operated airport facilities.

Assistance and Subsidies--For local governments this category is limited to direct cash assistance payments to public welfare recipients. See Public Welfare.

Bond Funds--funds established to account for the proceeds of bond issues pending their disbursement.

Borrowing--Long-term debt incurred, other than to refund existing long-term debt, plus any net increase in short-term debt outstanding.

Capital Outlay--Direct expenditure for contract or force account construction of buildings, roads, and other improvements, and for purchases of equipment, land, and existing structures. Includes amounts for additions, replacements, and major alterations to fixed works and structures. However, expenditure for repairs to such works and structures is classified as current operation expenditure.

Cash and Security Holdings--Cash, deposits, and governmental and private securities (bonds, notes, stocks, mortgages, etc.) except holdings of agency and private trust funds. Does not include interfund loans, receivables, and the value of real property and other fixed assets.

Cash Assistance--See Public Welfare.

Construction--Production of fixed works and structures and additions, replacements, and major alterations thereto, including planning and design of specific projects, site improvements, and provision of equipment and facilities that

are integral parts of a structure. Includes both contract and force account construction.

Correction--Confinement and correction of adults and minors convicted of offenses against the law, and pardon, probation, and parole activities.

Current Charges--Amounts received from the public for performance of specific services benefiting the person charged and from sales of commodities and services except by city utilities. Includes fees, assessments, and other reimbursements for current services, rents and sales derived from commodities or services furnished incident to the performance of particular functions, gross income or commercial activities, and the like. Excludes amounts received from other governments (see Intergovernmental Revenue) and interdepartmental charges and transfers. Current charges are distinguished from license taxes, which relate to privileges granted by the government or regulatory measures for the protection of the public.

Current Operation--Direct expenditure for compensation of own officers and employees and for supplies, materials, and contractual services except amounts for capital outlay.

Debt--All long-term credit obligations of the city and its agencies whether backed by the city's full faith and credit or nonguaranteed, and all interest-bearing short-term credit obligations. Includes judgments, mortgages, and revenue bonds, as well as general obligation bonds, notes, and interest-bearing warrants. Excludes noninterest-bearing short-term obligations, interfund obligations, amounts owed in a trust or agency capacity, advances and contingent loans from other governments, and rights of individuals to benefits from city employee retirement funds. Refunding of Long-Term Debt is the issuance of long-term obligations in exchange for, or to finance the retirement of, outstanding long-term debt, generally to obtain more favorable interest rates.

Debt Issued--See Long-Term Debt Issued.

Debt Offsets--See Long-Term Debt Offsets.

Debt Outstanding--All debt obligations remaining unpaid on the date specified.

Debt Redemption--Long-term debt redeemed--i.e., amounts retired other than by refunding--plus any net decrease in short-term debt outstanding.

Debt Retired--See Long-Term Debt Retired.

Direct Expenditure--Payments to employees, suppliers, contractors, beneficiaries, and other final recipients of government payments--i.e., all expenditure other than Intergovernmental Expenditure.

Education--Schools and other educational facilities and services. Elementary and Secondary Education includes mainly city-operated elementary and secondary schools and other educational institutions (other than higher education), and intergovernmental expenditures for education, payments to private institutions, and special educational programs. Revenue and expenditure for school lunch services, athletic events, and other commercial or auxiliary services are reported on a gross basis. Institutions of Higher Education comprises universities, colleges, and junior colleges operated by the city.

Elementary and Secondary Education--See under Education.

Employee-Retirement Expenditure--Cash payments to beneficiaries (including withdrawals of contributions) of city administered employee-retirement programs. Excludes cost of administering retirement systems, city contributions to State-administered employee-retirement systems, and noncontributory gratuities paid to former employees; these are classed under General Expenditure.

Employee-Retirement Revenue--Revenue from contributions required of employees for financing city-administered employee-retirement systems, earnings on investments held for such systems, and receipts of State payments for employees covered by municipal systems. Excludes any contributions by a city, either as employer contributions or for general financial support, to an employee-retirement system. Tax proceeds, donations, and any forms of revenue other than those enumerated above are classified as general revenue rather than employee-retirement

revenue, even though such amounts may be received specifically for employee-retirement purposes.

Equipment--Apparatus, furnishings, motor vehicles, office machines, and the like, having an expected life of more than 5 years. Equipment expenditure consists only of amounts for purchase of equipment. Rental and repair expenditures are classified as current operation expenditure. Expenditures for facilities that are integral parts of structures are classified as expenditure for construction or for purchase of land and existing structures.

Expenditure--All amounts of money paid out by a government--net of recoveries and other correcting transactions--other than for retirement of debt, investment in securities, extension of credit, or as agency transactions. Note that expenditure includes only external transactions of a government and excludes noncash transactions such as the provision of perquisites or other payments in kind.

Financial Administration--Municipal officials and agencies concerned with tax assessment and collection, accounting, auditing, budgeting, purchasing, custody of funds, and other central finance activities.

Fire Protection--City fire fighting organization and auxiliary services thereof, inspection for fire hazards, and other fire prevention activities. Includes cost of fire fighting facilities such as fire hydrants and water, furnished by other agencies of the city government.

Full Faith and Credit Debt--Long-term debt for which the credit of the city, implying the power of taxation, is unconditionally pledged. Includes debt payable initially from specific taxes or nontax sources, but representing a liability payable from any other available resources if the pledged sources are insufficient.

General Control--The governing body, municipal courts, office of the chief executive, and central staff services and agencies concerned with personnel administration, law, recording, planning and zoning, and the like. See also Financial Administration.

General Debt--All debt other than that identified as having been issued specifically for utility purposes. See Utility Debt.

General Expenditure--All city expenditure other than the specifically enumerated kinds of expenditure classified as utility expenditure, liquor stores expenditure, and employee-retirement or other insurance trust expenditure.

General Public Buildings--Provision and maintenance of public buildings not allocated to particular functions.

General Revenue--All city revenue except utility revenue, liquor stores revenue, and employee-retirement and other insurance trust revenue. The basis for distinction is not the fund or administrative unit receiving particular amounts, but rather the nature of the revenue sources concerned. Includes all tax collections and intergovernmental revenue, even if designated for employee-retirement or local utility purposes.

General Revenue Sharing--Amounts distributed by the Federal Government to municipalities under the State and Local Fiscal Assistance Act of 1972, as amended.

General Sales or Gross Receipts Taxes--See under Sales and Gross Receipts Taxes.

Health--Health services, other than hospital care, including health research, clinics, nursing, immunization, and other categorical, environmental, and general public health activities. School health services provided by health agencies (rather than school agencies) are included here.

Highways--Streets, highways, and structures necessary for their use, snow and ice removal, toll highway and bridge facilities, and ferries. However, highway policing and traffic control are classed under Police Protection.

Hospitals--Establishment and operation of hospital facilities, provision of hospital care, and support of other public or of private hospitals. Own Hospitals comprises those administered by the government concerned. Excludes payments to other governments and to private agencies for hospital support and services, which are classed under Other Hospitals. However, see Public Welfare concerning vendor payments under welfare programs.

Housing and Community Development--City housing and redevelopment projects and regulation, promotion, and support of private housing and redevelopment activities. For cities in Arizona, Kentucky, Michigan, New Mexico, New York, and Vir-

ginia, generally includes data for municipal housing authorities. Housing authorities for other cities are usually classified as independent governments and data for them are included in Governmental Finances, series GF, No. 5.

Interest Earnings--Interest earned on deposits and securities, including amounts for accrued interest on investment securities sold. However, receipts for accrued interest on bonds issued are classified as offsets to interest expenditure. Note that interest earnings shown under general revenue do not include earnings on assets of employee-retirement systems.

Interest Expenditure--Amounts paid for the use of borrowed money. Interest on utility debt is included in Utility Expenditures (which see).

Intergovernmental Expenditure--Amounts paid to other governments as fiscal aid in the form of shared revenues and grants-in-aid, as reimbursements for performance of general government activities and for specific services for the paying government, or in lieu of taxes. Excludes amounts paid to other governments for purchase of commodities, property, or utility services, any tax imposed and paid as such, and employer contributions for social insurance--e.g., contributions to the Federal Government for old-age, survivors', disability, and health insurance for city employees.

Intergovernmental Revenue--Amounts received from other governments as fiscal aid in the form of shared revenues and grants-in-aid, as reimbursements for performance of general government functions and specific services for the paying government (e.g., care of prisoners or contractual research), or in lieu of taxes. Excludes amounts received from other governments for sale of property, commodities, and utility services. All intergovernmental revenue is classified as general revenue.

Intergovernmental Revenue for General Local Government Support--Fiscal aid revenue that is unrestricted in function or in purpose to which amounts may be applied by the receiving government.

Intergovernmental Revenue From Federal Government--Intergovernmental revenue received by the city government directly from the Federal Government. Excludes Federal aid channeled through State governments.

Intergovernmental Revenue From State Government--All intergovernmental revenue received from the State government, including amounts originally from the Federal Government but channeled through the State.

Libraries--Public libraries operated by the city (except those operated as part of a school system primarily for the benefit of students and teachers, and law libraries) and support of privately operated libraries.

License Taxes--Taxes enacted (either for revenue raising or for regulation) as a condition to the exercise of a business or nonbusiness privilege, at a flat rate or measured by such bases as capital stock, capital surplus, number of business units, or capacity. Excludes taxes measured directly by transactions, gross or net income, or value of property except those to which only nominal rates apply. "Licenses" based on these latter measures, other than those at nominal rates, are classified according to the measure concerned. Includes "fees" related to licensing activities--automobile inspection, professional examinations and licenses, etc.--as well as license taxes producing substantial revenues.

Liquor Stores Expenditure--Expenditures for purchase of liquor for resale and provision and operation of liquor stores. Excludes expenditure for law enforcement and licensing activities carried out in conjunction with liquor store operations.

Liquor Stores Revenue--Amounts received from sale of liquor by city liquor stores and other revenues from city liquor store operations. Excludes any taxes collected by city liquor monopoly systems.

Long-Term Debt--Debt payable more than 1 year after date of issue.

Long-Term Debt Issued--The par value of long-term debt obligations incurred during the fiscal period concerned, including funding and refunding obligations. Debt obligations authorized but not actually incurred during the fiscal period are not included. Refunding Issues of Long-Term Debt represents the par value of refunding bonds issued during the fiscal year. Excludes any amounts authorized but not actually issued.

Long-Term Debt Offsets--Cash and investment assets of sinking funds and other reserve funds, however designated, which are specifically held for redemption of

long-term debt, including bond reserve funds, deposits with fiscal agents for the redemption of uncanceled debt, and balances in refunding bond accounts held pending completion of refunding transactions.

Long-Term Debt Refunded--See under Long-Term Debt Retired.

Long-Term Debt Retired--The par value of long-term debt obligations liquidated by repayment or exchange, including debt retired by refunding operations. Long-Term Debt Refunded is the par value of long-term debt retired during the year as a result of refunding transactions.

Natural Resources--Flood control, soil and water conservation, irrigation, drainage, forestry and forest fire protection, agricultural fairs, and other activities for promotion of agriculture and conservation of natural resources.

N.E.C.--Not elsewhere classified.

Net Long-Term Debt--Long-term debt outstanding minus long-term debt offsets.

Nonguaranteed Debt--Long-term debt payable solely from pledged specific sources--e.g., from earnings of revenue producing activities (utilities, sewage disposal plants, toll bridges, etc.), from special assessments, or from specific nonproperty taxes. Includes only debt that does not constitute an obligation against any other resources of the city if the pledged sources are insufficient.

Own Hospitals--See under Hospitals.

Parking Facilities--Municipal public-use garages and other parking facilities operated on a charge basis, including purchase and maintenance of on- and off-street parking meters.

Parks and Recreation--Cultural-scientific activities, such as museums and art galleries; organized recreation, including playgrounds and playfields, swimming pools and bathing beaches; municipal parks; and special facilities for recreation, such as auditoriums, stadiums, auto camps, recreation piers, and boat harbors.

Police Protection--Preservation of law and order and traffic safety. Includes police patrols and communications, crime prevention activities, detention and custody of persons awaiting trial, traffic safety, vehicular inspection, and the like.

Property Taxes--Taxes conditioned on ownership of property and measured by its value. Includes general property taxes related to property as a whole, real and personal, tangible or intangible, whether taxed at a single rate or at classified rates, and taxes on selected types of property, such as motor vehicles or certain or all intangibles.

Protective Inspection and Regulation--Regulation of private enterprise for the protection of the public and inspection of hazardous activities except where done incident to major functions, such as fire prevention, health, natural resources, etc. Distinctive licensing collection activities are classed under Financial Administration.

Public Safety--Comprises the functions of Police Protection, Fire Protection, Correction, and Protective Inspection and Regulation.

Public Welfare--Support of and assistance to needy persons contingent upon their need. Excludes pensions to former employees and other benefits not contingent on need. Expenditures under this heading include: Cash Assistance paid directly to needy persons under the categorical programs (Old Age Assistance, Aid to Families with Dependent Children, Aid to the Blind, and Aid to the Disabled) and under any other welfare programs; Vendor Payments made directly to private purveyors for medical care, burials, and other commodities and services provided under welfare programs; and provision and operation by the city of Welfare Institutions. Other Public Welfare includes payments to other governments for welfare purposes, amounts for administration, support of private welfare agencies and other public welfare services. Health and Hospital services provided directly by the city through its own hospitals and health agencies, and any payments to other governments for such purposes are classed under those functional headings rather than here.

Purchase of Land and Existing Structures--Purchase of these assets as such, purchase of rights-of-way, and title search and similar activity associated with the purchase transactions.

Refunding Issues of Long-Term Debt--See under Long-Term Debt Issued.

Refunding of Long-Term Debt--See under Debt.

Revenue--All amounts of money received by a government from external sources--net of refunds and other correcting transactions--other than from issuance of debt, liquidation of investments, and as agency and private trust transactions. Note that revenue excludes noncash transactions such as receipt of services, commodities, or other "receipts in kind."

Salaries and Wages--Amount expended for compensation of employees. Consists of gross amounts without deduction of withholdings for income tax, social security, or retirement coverage.

Sale of Property--Sale of real property and improvements. Excludes sale of securities and sale of commodities, equipment, and other personal property.

Sales and Gross Receipts Taxes--Taxes, including "licenses" at more than nominal rates, based on volume or value of transfers of goods or services, upon gross receipts therefrom, or upon gross income, and related taxes based upon use, storage, production (other than severance of natural resources), importation, or consumption of goods. Dealer discounts or "commissions" allowed to merchants for collection of taxes from consumers are excluded. Comprises:

General Sales or Gross Receipts Taxes--Sales or gross receipts taxes which are applicable with only specified exceptions to all types of goods and services, or all gross income, whether at a single rate or at classified rates. Taxes imposed distinctively upon sales of or gross receipts from selected commodities, services, or businesses are reported separately under category listed below.

Selective Sales and Gross Receipts Taxes--Sales and gross receipts taxes imposed on sales of particular commodities or services or gross receipts of particular businesses, separately and apart from the application of general sales and gross receipts taxes.

Sanitation--Comprises Sewerage and Sanitation Other Than Sewerage (see below). Sanitary engineering, smoke regulation, and other health activities are classified under Health.

Sanitation Other than Sewerage--Street cleaning, and collection and disposal of garbage and other waste.

Securities--Stocks and bonds, notes, mortgages, and other formal evidences of indebtedness.

Selective Sales and Gross Receipts Taxes--See under Sales and Gross Receipts Taxes.

Sewerage--Sanitary and storm sewers and sewage disposal facilities and services, and payments to other local governments for such purposes.

Short-Term Debt--Interest-bearing debt payable within 1 year from date of issue, such as bond anticipation notes, bank loans, and tax anticipation notes and warrants. Includes obligations having no fixed maturity date if payable from a tax levied for collection in the year of their issuance.

Special Assessments--Compulsory contributions collected from owners of property benefited by special public improvements (street paving, sidewalks, sewer lines, etc.) to defray the cost of such improvements (either directly or through payment of debt service on indebtedness incurred to finance the improvements) and apportioned according to the assumed benefits to the property affected by the improvements.

Taxes--Compulsory contributions exacted by a government for public purposes, except employee and employer assessments for retirement and social insurance purposes, which are classified as insurance trust revenue. All tax revenue is classified as general revenue and comprises amounts received (including interest and penalties but excluding protested amounts and refunds) from all taxes imposed by a government. Note that city tax revenue excludes any amounts from shares of State-imposed and collected taxes, which are classified as intergovernmental revenue.

Transit Subsidies--Payments in support of subway, bus, surface rail and street railroad, and other passenger transportation systems, including public support of a private utility or railroad and intergovernmental subsidy payments. Excludes amounts paid by a parent government to its dependent transit utility. Also see under Utilities.

Transportation--Comprises the functions of Highways, Air Transportation, Parking Facilities, Water Transport and Terminals, and Transit Subsidies.

Utility--A municipally owned and operated water supply, electric light and power, gas supply, or transit system. City revenue, expenditure, and debt relating to utility facilities leased to other governments or persons, and other commercial type activities of city governments, such as port facilities, airports, housing projects, radio stations, steam plants, ferries, abattoirs, etc., are classified as general government activities. Also see Transit Subsidies.

Utility Debt--Debt originally issued specifically to finance city-owned and operated water, electric, gas, or transit utility facilities.

Utility Expenditure--Expenditure for construction of utility facilities or equipment, for production and distribution of utility commodities and services (except those furnished to parent city), and for interest on utility debt. Does not include expenditure in connection with administration of utility debt and investments (treated as general expenditure) and the cost of providing services to the parent city government (such costs, when identifiable, are treated as expenditure for the function served).

Utility Revenue--Revenue from sale of utility commodities and services to the public and to other governments. Does not include amounts from sales to the parent city. Also excludes income from utility fund investments and from other nonoperating properties (treated as general revenue). Any revenue from taxes, special assessments, and fiscal aid is classified as general revenue, not utility revenue.

Vendor Payments--See under Public Welfare.

Water Transport and Terminals--Provision, operation, and support of canals and other waterways, harbors, docks, wharves, and other related terminal facilities.
